and business partners

Ecublens, 19th February 2018

### LEMO and the EU Regulation on chemicals (REACH)

The European Regulation N° 1907/2006, covering the registration, evaluation, authorisation and restriction of chemical substances (REACH), entered into force on 1<sup>st</sup> June 2007.

The European Chemicals Agency (ECHA) publishes the List of Substances of Very High Concern (SVHC) on its webpage: (<http://echa.europa.eu/web/guest/candidate-list-table>).

With reference to the last SVHC updated list, dated 15<sup>th</sup> January 2018 we hereby declare that none of the LEMO articles are known to contain any of the 181 substances of Very High Concern (SVHC) as intentionally added component or as expected process impurities above the threshold of 0.1% nor any of the 43 substances mentioned in the annex XIV since 13<sup>th</sup> June 2017.

As far as the REACH regulation is concerned, LEMO is a producer of items made from finished products. In cooperation with our suppliers and according to our supply channels we are kept informed about their procedures of pre-registration and we guarantee the safe use of the items that we supply to you.

We ensure a permanent reviewing process of our products against the SVHC updated list. This process includes in particular the analysis of supplier data as well as compliance evidences.
