

LEMO
High Quality Connectors and Cables

LEMO is the acknowledged leader in the design and manufacture of custom precision connection and cable solutions. Created in 1946, LEMO currently employs over 1'700 employees in Switzerland and within its 19 subsidiaries worldwide. LEMO and its affiliated sister companies REDEL, NORTHWIRE and COELVER, is committed to providing connector solutions, relying on its cutting-edge expertise and specialized distribution network, to meet the customers' demanding expectations in over 80 countries around the world. LEMO's high quality Push-Pull connectors are found in a variety of challenging application environments including medical, industrial control, test and measurement, audio-video and telecommunications.

For our international headquarters in Ecublens Switzerland to join the Group IT Applications Team, we are currently looking to hire a person for the position of:

IT Analyst Developer for ERP

Responsibilities

- Provide 2nd and 3rd level support to all LEMO Group entities for the LEMO QAD-based ERP solution
- Participate in new projects' implementation in line with the LEMO roadmap
- Ensure stable operation, maintenance and monitoring of the ERP
- Participate in the definition and documentation of LEMO business processes
- Provide user manuals and deliver training sessions for efficient use of IS solutions by business users
- Participate in the elaboration and evolution of the future IS architecture

Job Requirements

- Information System Scientist (ES/CFC or equivalent degree), completed with 3 to 5 years of experience as a developer (OpenEdge or similar L4G) on ERP applications
- Knowledge of manufacturing, supply chain and finance processes
- Ability to translate functional requirements into technical specifications, coding and efficient testing
- Quick learner, rigorous, with strong analytical and problem-solving skills
- Teamwork, multicultural sensitivity and good communication skills. Fluent in French and English, German is a plus

By joining LEMO, we offer an attractive and dynamic working environment with the possibility to contribute to the Group's success. Exciting challenges and attractive social- and employee benefits are offered to those who join our successful 3rd-generation family-owned, high-tech Swiss company. If you have the required qualifications and experience, please send us your complete application to: jobs@lemo.com. We may contact you if your background meets our requirements. You can browse our "careers" section to view all our current vacancies on our website: www.lemo.com. Thank you for your interest in LEMO.
